Complete list of citations as of July 2006
Total: 197
Net of self-citations: 184

Below is a list of cites to my papers by published or forthcoming articles and books (no working papers). The sources used were Web of Science, Google, and Google Scholar.

The number of citations, 197 (184 next of self-citations), is higher than the Web of Science number for various reasons: The Web of Science does not include cites by forthcoming articles or books, for certain journals the database is only updated once a year, and other journals are not included in the database.

Note: The corresponding number in the Web of Science is 92. Web of Science records cites to working papers under the first co-author in alphabetical order. Thus, cites to my publications and to Wolfenzon (1999) can be found under WOLFENZON D*. Cites to all my working papers (except for Wolfenzon, 1999) and to working paper versions of all my published papers are under the name of my first co-author in alphabetical order. They can be found under ALMEIDA H*, BENNEDSEN M*, MORCK R*, NAGAR V*, and SHLEIFER A*. It sometimes requires a bit of work to determine whether a working paper found under, say ALMEIDA H*, is also joint paper with me, for the cite might not show the title of the paper or it might show an old title. In this case, clicking on the box next to the citation and hitting the “Finish Search” button may help. If the cite includes an NBER or CEPR working paper number, then going directly to the NBER or CEPR website is often the best way.

A theory of pyramidal ownership, 1999, mimeo

8. La Porta, Rafael, Florencio Lopez-de-Silanes, and Andrei Shleifer, 1999, Corporate ownership around the world, Journal of Finance 54(2), 471-517.
