

Pre-doctoral Research Fellowship

Overview

The NYU Stern Department of Economics is hiring highly skilled and motivated individuals to work as full-time pre-doctoral research fellows for a term of at least one year.

Research activities will fall within applied microeconomics (primarily industrial organization) in collaboration with Professors Chris Conlon, Michael Dickstein, Maher Said, and Paul Scott. Possible research areas include health reform and health care markets, environmental and agricultural economics, retail markets, antitrust and regulation, and IO theory.

Research fellows will also be a part of the NYU Stern Economics academic community, which entails the opportunity to attend courses, seminars, and social events with PhD students and faculty.

NYU Stern provides equal employment opportunities to all employees, applicants and job seekers.

A start date of July 1, 2019 is preferred, but negotiable. We will consider applications on a rolling basis.

Qualifications

Candidates should have a strong quantitative background, significant programming experience, and an ability to solve problems independently. A minimum of a bachelor's degree with a quantitative concentration is required.

A background in economics is not necessary, as we welcome candidates with strong quantitative skills who want to gain more exposure to economics.

Candidates with a strong interest in research and potential interest in graduate studies in economics are preferred. Previous research fellows have gone on to pursue graduate studies at Harvard, Princeton, Northwestern, and Cambridge.

Benefits

- Competitive 12-month salary.
- Eligibility for [NYU full-time employee benefits](#), including health care.
- Opportunity to enroll in courses, including undergraduate and graduate courses in economics, mathematics, and computer science.

Applications

To apply, please complete the survey available at <http://tinyurl.com/nyustern-prf>. In the survey, you will be able to upload:

- Cover letter describing:
 - Prior research experience
 - Interest in a pre-doctoral position
 - Programming experience and expertise
 - Name and contact information for at least two references.
- Resume/CV
- All undergraduate and graduate transcripts.
