Please be sure to attend your own section’s exam unless you have made other arrangements with Professor Lynch.

II. Exam Time: 80 minutes.

III. Closed Book except for one 8.5” x 11” page with anything written on both sides. Be warned! If you are found with more than the allowed surface area of pages, all of your pages will be immediately confiscated. You may also take a calculator (but not a palm pilot) into the exam.

IV. Examinable Material:

A. Lecture Notes: The Lecture Notes up to the end of Lecture 4 form the basis of the examinable material. Use these as your first reference.

B. Problem Sets: Problem Sets 1 through 4.

V. The practice questions and the practice midterms are a good guide as to the style of question on the Midterm. In terms of the length of the questions, 1 point = 0.8 minutes so a 10 point question should take 8 minutes. (If you can not do the practice questions in the allotted time then you probably will not be able to do the Midterm in 80 minutes.) The Problem Set questions are also a good guide.

VI. The following is the set of instructions that will accompany the Midterm.

Instructions: 80 minutes. Closed book. You are permitted use of a financial calculator and one sheet (8½” x 11") of notes. Answer all questions. Each question carries the number of points indicated. Total points is 100. Show all work on the exam paper itself. If you do not have or can not calculate a number that you need, make an assumption and proceed with the rest of the question. No credit will be given for illegible, unsupported or ambiguous answers.
