Data Notes...

Next session, we will delve deeper into the stockholder composition for your company.

You can get information on insider and institutional holdings in your firm by going to

<http://finance.yahoo.com/>

Enter your firm's name and check under the profile of your firm, under the left hand corner. You can also get more information on trading by insiders in the same site under insiders.

To see comparable numbers on insider and institutional holdings for the sector in which your firm operates, you can visit my web site at:

http://www.stern.nyu.edu/~adamodar/New_Home_Page/data.html

You can download the data in excel format.

I am not on your email list. How do I get on?

If you were not on the list, how did you get this attachment? If you are reading someone else's copy, there are two possible reasons you might not be on the list:

1. You might not be registered for the class.
2. Your email quota might have been used up.
3. You may be a non-Stern student. Send me an email and I can add your name to the list.
